WHAT'S NEW

Based in Lerwick, Shetland Islands, Blackwood distillers aims to be the most innovative spirits company in the world by attracting new drinkers into old categories with stunning products and compelling brands that consumers around the world adore.

Just released in Australia the Blackwood Range includes:

Blackwood's Unique Pale Green Gin

Refreshing and richly aromatic, Blackwood's Dry Gin is reminiscent of the surrounding North Sea in its natural pale green colour. Its infusion of local handpicked botanicals recreates the essence of Shetland in a bottle.

Created to our own Nordic recipe, Blackwood's is a more balanced gin for contemporary tastes and so luscious it can be drunk neat!

Blackwood's Shetland Vodka

Crisp, bracing and with the smoothest of finishes, Blackwood's Shetland Vodka is made from pure spring water from Heglibister Spring, at the head of the Weisdale Valley in Shetland. Its triple distilled wheat grain spirit is then filtered over Nordic Birch Charcoal, and finally Ice Filtered, which is Blackwood's unique added innovation.

When put in the fridge/freezer, the front panel changes colour from Frost to Iceberg Blue to let you know when it is chilled to perfection.

JAGO Vanilla Vodka Cream Liqueur

Jago's is the first vanilla vodka cream liqueur in the world and is made with the world's best selling spirit (vodka), the world's favourite flavour and aroma (natural vanilla) and pure Scottish cream, including some from the local Shetland herd. Vodka cuts through the vanilla cream leaving a delightful warmth in the mouth.

Combined with Blackwood's Shetland Vodka, Jago's has a sleek, surprisingly clean taste and is best served chilled.

FROM THE CREATOR OF BAILEY'S
Jago's Vanilla Vodka Cream Liqueur is the creation of Tom Jago, who was involved in the creation of Bailey's, Malibu and other global drink brands.
