

New Supermarket in the Old VFL Waverly Park Stadium

Just opened this FoodWorks express format store will cater for the huge number of houses/units that have sprung up over the last few years on the former site of VFL Park. While the stadium and the football oval exists surrounded by houses, the only real link to football is that Hawthorn will use the facility as their home base when the refit is complete.

The area was never going to be the best for football but as a new urban lifestyle village it is obviously very successful.

Many urban areas of Melbourne will undergo similar redevelopments in larger or smaller scale and all of these will give the smaller operator more and more opportunities to trade in the chain dominated suburbs.

We will bring you further pictures of this unique store next month.

John Markham

FoodWorks Paul Kayruse and George the store owner preparing the store for the opening on January 30.
