Richmond's New IGA

With the growth of inner urban living the rebirth of independent retailers heading for the shopping strips to open compact stores continues.

Owners, Salam Georges pictured top left hand side & Sami Younan not pictured, recently opened in Bridge Road supporting the new IGA + Liquor logos. This compact store has a good range of fresh foods, a great delicatessen as well as a good range of groceries and liquor.

Even though the store is located over the road from a large Dan Murpheys, it will sell liquor because it opens for an additional six hours a day, till 12 every night.

Sam's IGA has installed the PosTec system for its four lane store. As can be seen above it includes big bright customer display screens which are a real hit with customers as they are able to follow the transactions much better than the traditional small displays.
