

## FOODWORKS

### Waverley Park FoodWorks

As reported last month a FoodWorks supermarket opened in the old AFL Park grandstand recently to service the growing new suburb that has replaced the former icon of the VFL.

Owner George Antonopoulos even serves a coffee right from the checkout to his early morning customers in for a bottle of milk and the paper,

The development was designed by TRG and IDM with a very modern look that is extremely eye catching. The modern wood panelling, special liquor racks and checkout were also built by IDM. The flooring is also a unique feature combining polished concrete and wood look vinyl as well as anti-slip vinyl along the dairy case.

The store is compact in size but big on value with competitive prices and a wide range of product, including fresh meat and produce.
