

你给散装食品标明了产地了吗？

2006年8月至12月是法定期间超市雇主必需对所有散装食品（主要是蔬菜水果，熟食柜食品，海鲜和生肉类）标明其产地，以其给顾客购买时提供选择的信息。我希望广大会员们已做好了这方面的工作。本人在此向大家介绍一下具体的做法，为那些还没有做好此工作的店主提供一些帮助。

蔬菜水果部门：（1）如果使用 Retech Goble Grocery Manager 运作软件同时你的计算软件是 Window2000 或以后的版本，Retech Goble 可给 Grocery Manager 升级，那么 ‘Product of Australia’ 或 ‘Product of xxx’ 将随价格一同印在价格单上。其他运作软件是否有这样的功能请与软件公司联系；（2）在 Microsoft word 上事先设制好 ‘Product of Australia’ 和 ‘Product of xxx’ 字板，然后在打印好价格的 9UP 或 A4 价单上重新在 Microsoft word 上加印一遍；（3）在 9UP 或 A4 价单旁挂/贴上另一张印有 ‘Product of Australia’ 或 ‘Product of xxx’ 的 9UP 或 A4 纸条；蔬菜水果供应商必需给大家提供产品产地的资料。如果打印不方便的话，这些产品产地资讯用手写当然也可以。

熟食柜食品部门：每个产品同样地都应该标有其产地或主要成份的来源。这些产品产地或成份来源均由供应商提供。大家可以在现有的价标码上再套上一小块标有 ‘Product of Australia’ 或 ‘Product Made in Australia from Local and imported ingredient’ 之类信息的可洗性塑料牌子。这些塑料牌子可从以下公司购买：Mills Display Pty Ltd 电话 0395583577

大家如果还有什么疑问的话，可求助于分管你们店的 IGA 或 Foodwork 经理，也可和我联系。

This is an article about how to comply with Contry of Origin Lable legislation.

Business Growth Checklist

A 'Growing your Business Checklist', developed to help small business owners make their small businesses more successful, has been released by the Federal Government.

The Growing your Business Checklist covers many issues that small business owners need to know when growing their businesses, such as: exporting, innovation, obtaining finance, franchising, grants and assistance, legal help, recruiting staff and environmental management.

The Checklist, developed by the Office of Small Business in consultation with small business owners, is free and downloadable at www.business.gov.au/checklist

The Federal Small Business Minister, Fran Bailey, said that "Through this Checklist, the Australian Government is providing the most up-to-date information for small business owners to grow their business. By helping small business to grow, we can create more jobs and earn Australia more export dollars."

Become a better Manager 'overnight'

Grocery Manager - a scalable set of tools to help you manage your store better

Your business will seem to change 'overnight' when you install *Grocery Manager* from Worldsmart Retech. This amazing instore management system will give you complete access to vital information about your store. Developed for Windows, *Grocery Manager* combines everything from Gross Profit Reporting and Shelf Label Printing through to full Inventory Control and Automatic Reordering.

From the supplier warehouse, product information is fed into your store computer and then into the Scanning System. This allows for updates of new lines, item description changes, price decreases and increases, deals, specials, promotions and deleted lines – and *Grocery Manager* has a variety of optional modules which you can add to suit your needs.

Grocery Manager makes you a better and more profitable manager by telling you exactly what is happening in your store.

Call Worldsmart Retech today and take control of your business.
