

Keeping Accidents at Bay

The owners, managers and staff at Nelsons Bay and Anna Bay IGA stores in New South Wales recently invited MGA's safety consultant/trainer to visit their stores to conduct safety training and audits of both stores. This proactive approach enabled the store managers to identify safety areas requiring attention and ways for implementing improvement.

The store managers were provided with a safety plan detailing actions to be taken to ensure compliance with NSW OH&S legislation. This plan plus the training will stand them in good stead if NSW WorkCover were to conduct a surprise safety audit.

Well done to both store managers and the owners. Not only do staff at these stores have a fantastic seaside environment to work in, but they also have a safe work environment.
