

Strike whilst the iron is warm*

Do you ratchet things up when you're still learning the ropes or when your business is absolutely sailing? It depends.

For now, let's just acknowledge that conventional thinking doesn't always cut it in a business world that is anything but conventional. With this in mind, BankWest has honed its products and service ethic throughout its 100-year journey. In fact, there is no aspect of the BankWest offering which is not informed by an obsessive and single-minded approach.

***Assume nothing. Challenge everything.**
