

Why We Chose CLOCKON

Gippsland Business Development (GBD) is a group that employs 300 full-time, part-time and casual employees across its seven Foodworks Supermarkets in Victoria. The group's management entity, located in Narre Warren, supports its stores with specialised accounting and administration services, including human resource management and payroll.

"Implementing ClockOn has allowed us to automate and consolidate the entire payroll process and at the same time to ensure its accuracy and compliance with awards. The integrated C-Pass Electronic Time Capture system provides employees with a quick and secure method of clocking on and off their rostered shifts and the timesheets generated in ClockOn are automatically processed in the payroll," General Manager Angelo Constantinou explained.

"Our rapid business growth had proved that our previous manual paper-based rostering and timesheet systems were simply inadequate. Payroll was a time consuming task as timesheets had to be manually calculated and entered to another payroll system. We looked at a number of systems and found that none offered the level of integration of functions, (including payroll) that we required to solve this problem, with the notable exception of ClockOn"

"We are very impressed with the flexibility of ClockOn, particularly its powerful reporting capabilities. And it was important to us that our owners/store managers could benefit from the system. The Rostering function is exceptional, particularly in relation to its very accurate payroll modelling.

It has made the job of creating and managing rosters a breeze. Store managers can immediately see who's available and who's not, and can now build rosters to meet set payroll budgets".

"ClockOn has brought many other benefits to our organisation. It has greatly improved our overview and control of the business, including vastly improved record keeping. And it has undoubtedly reduced our costs. The cost of managing payroll alone has been reduced by more than 50%, which is great!

"We are very excited about our partnership with ClockOn Pty Ltd. The company has been extremely responsive to our needs. We have been delighted by their willingness to work with us to ensure a product which I believe is the very best available for our industry. As the direct result of this collaboration, we now have a powerful and reliable system, tailored to meet our exact needs with the flexibility to accommodate future change and growth".

"I have no reservation in recommending ClockOn to any supermarket intending to streamline its staff management and to automate payroll. You won't find anything better out there!"

Angelo Constantinou - General Manager
Gippsland Business Development

ClockOn

TIME & ATTENDANCE, HR & PAYROLL SYSTEMS

**SAVE UP TO 90% IN PAYROLL
PROCESSING TIME WITH CLOCKON**

ClockOn is an affordable and comprehensive time, attendance and payroll software system designed to meet the demands of all IGA stores.
